Lucas Dota

Shopify Developer | Themes & Apps

PROFILE

Shopify developer at Econverse, building custom themes and Shopify apps tailored to each client's business. Works across the whole storefront — Liquid sections and blocks for the Theme Editor, collection filtering and search, and apps that automate store operations. Earlier roles in sales and NFT trading built strong negotiation, client communication and market-analysis skills. C2-certified English.

EXPERIENCE

Junior Front-end Developer
Feb 2025 – Present
Econverse

- Develop and customize Shopify themes with Liquid, JavaScript, HTML and CSS.
- Build Shopify apps that automate processes and extend platform functionality.
- Create dynamic sections and configurable blocks for the Shopify Theme Editor.
- Implement collection filtering, search logic, validations and customized shopping experiences.
- Collaborate in a team using Shopify CLI, Git and GitHub, following version-control best practices.

NFT Trader
Jan 2021 – Sep 2023
Independent

- Traded NFTs in blockchain-based gaming ecosystems such as CryptoPlanes.
- Analyzed market trends, rarity and tokenomics to identify profitable assets.
- Executed buy/sell strategies based on supply, demand and in-game utility.
- Managed digital assets across crypto wallets and marketplaces.

Drywall Sales Representative
Apr 2019 – Nov 2020
Sucesso

- Calculated the materials needed for each customer project and registered sales orders in the company database.
- Negotiated delivery dates around the delivery team's availability and followed each sale through to final delivery.
- Loaded and unloaded heavy materials for customers, including forklift operation.
